INNOV@INSA 2021

JUNE 18th TO JULY 16th

INSA LYON ENGINEERING SCHOOL

Founded in 1957, INSA Lyon is one of France's leading Engineering Schools and counts more than 6,200 students out of which 1,700 are international - a point that was recognized in the last 2020 QS World University Ranking*. INSA Lyon is known for its high level of training but also its strong humanist values and rich campus life (largest Student Union in France). Most students are spread throughout 9 engineering departments (Master's degree students) and 8 doctoral schools (PhDs).

Internationalization is a prime concern, many courses are offered in English and international profiles increase yearly.

**Rank 130 out of 1620 universities in the International Student indicator*

SINCE 2016 > 182 STUDENTS FROM 24 UNIVERSITIES

INSA LYON SHORT PROGRAMS

INSA Lyon has launched 4 short programs in order to meet international expectations :

- SMART Lyon in February-March (2 weeks)
- INNOV@INSA in May-June and in June-July (4 weeks)
- Energ'INSA in January-February (3 weeks) **NEW**

Students experience a short-term program at INSA Lyon, located in France's Capital of Gastronomy. They will learn new skills, earn credits while creating bounds and expanding their network. Our short programs are a stepping stone for further studies and a boost for their career.

LEARNING OBJECTIVES

1. MANAGEMENT & INNOVATION IN EUROPE (45 hrs. lectures - 6 ECTS CREDITS)

Each team will have to create a customer centric offer, including new technological solutions, for solving an observed problem in a given universe. Ideally students will be encouraged to create a social impact business. They will investigate the French / European markets and prepare the launching strategy of a new offer.

Part I - Introduction to Project Management of Innovative Products & Services

- Learning the concepts and solutions required for successful completion of a project
- Team management will also be covered by presenting various methods and leadership styles a team manager can undertake to increase personal productivity and build an effective team

Part II - Economics & Management of Innovation in Europe

- Gain an excellent understanding of classic and recent trends on the economics of innovation in European countries

Part III - Essential Skills for Entrepreneurs in Innovation-driven Start-ups

The course focuses on entrepreneurial behavior, the ability to create, maintain and enhance a network of European contacts facilitating the development of innovative projects. The course is designed around:

- Short workshops on the main tools used in entrepreneurship in small teams ; the students will have to conduct an innovative project.
- Game, CIBUM challenge: From Creativity to Innovation and to BUiness Model.

2. FRENCH LANGUAGE, CROSS-CULTURAL COMMUNICATION, INDUSTRY AND SOCIETY *[45 hrs. lectures - 6 ECTS CREDITS]*

Please specify your level in French when applying

Part I - Introduction to French Language and Culture

The focus of this unit will be on the oral French used in daily life. Using action-based language teaching methods, this class will require the students to use the French they learn during class activities and on-site situations. The overall goal is to introduce the students to various cultural aspects of life in Lyon.

Part II - Developing Intercultural Competence

Using interactive teaching tools such as student-led discussions, debates and interviews. This section of the course aims to build the knowledge base and the cultural empathy necessary to increase the students' ability to perceive, analyze and understand cross-cultural differences.

Part III - Industry and Society

Using a case-study approach, we will use our location in Lyon, France's « Second biggest city », as a base for studying the impact of different industries on society and social institutions over time. The students will acquire a knowledge base which will significantly add to what the French refers to as their 'culture générale', a prerequisite for anyone who wants to be considered well-educated.
